School_Name: Western State College

Author: Ted Violet

Email: tviolet@western.edu

Report_Date: 02-25-2004

Missions: ChemSat

Current_Progress: Our mission is actually Ozonosat, although Chemsat would also be appropriate. We will attempt to measure ozone concentration as a function of altitude. We have place orders for all of the components we anticipate needing. We are working on a web page and also on a description of our mission.

Upcoming_Milestones: Web page and mission description will be finished by March 3.

Current_Weight: 1.5 kg

Questions_Comments: A member of our team was killed in a car accident last weekend.

Launch_Date: August 7, 2004
