School_Name: Metro State College

Author: Don Grissom

Email: adgrisso@att.net

Report_Date: 03-10-2004

Missions: VideoSat, RoverSat

Current_Progress: We are currently getting our team organized. We have an increase in our team size this year and will be making subgroups to work on different aspects of the project. In the next two weeks we will have a finalized design direction.

Upcoming_Milestones: CDR

Current_Weight: 1.5 kg

Questions_Comments: I am assuming the new weight maximum is still at 1.8 Kg. Is that a final set weight?

Launch_Date: August 7, 2004
