School\_Name: Colorado State University

Author: John Rhoades

Email: rhoadesj@holly.colostate.edu

Report\_Date: 03-10-2004

Missions: RoverSat, SolarSat

Current\_Progress: The CSU DemoSat Team has decided to design a hybrid of RoverSat and SolarSat. Currently we are in the brainstorming phase of the design. We are researching the materials and the functionality of the project.

Upcoming\_Milestones: CDR on April the 2nd

Current\_Weight: 1.5 kg

Questions\_Comments: Current work is to achieve the April 2nd CDR.

Launch\_Date: August 7, 2004
