School_Name: Metro State College

Author: Don Grissom

Email: adgrisso@att.net

Report_Date: 03-24-2004

Missions: VideoSat, RoverSat

Current_Progress: We have selected our rover design and are starting to find materials. We are beginning to prototype our design. We will also have decisions made this week about a video camera to order for our flight. Our flight computer and electronics have been selected and ordered. I think we are in good shape, but have a lot of work ahead of us.

Upcoming_Milestones: CDR

Current_Weight: Over 1.7 kg (Call Chris)

Questions_Comments: none

Launch_Date: August 7, 2004
