DUE BY: September 9, 2011 at 4:00 PM MDT

This form is designed for customers to express interest in the RockSat-X 2012 program. Responses to the questions on this form will be used to gauge interest in the program and establish the allotment of space and resources. COSGC understands that payload and/or team members will not be fully developed at this stage, but please do your best to fill this form out as completely as possible.

**PI Contact Information:**

Name: | Last | Middle | First
---|---|---|---
Organization:
Address: Street
City, State:
Experiment Name:

**Brief Description of the Mission(s) Being Considered:** (If unknown, please state explicitly)

**Student Involvement:** (Briefly describe student involvement with this project—Class? Senior Design? Extra-Curricular?)
Do you plan to have faculty, industry, or government involved with your project (Check yes or no)?

Yes | No
--- | ---

If yes, please explain:

Do you anticipate the need for voltages higher than the provided 28 V (Check yes or no)?

Yes | No
--- | ---

If yes, please explain:

Sharing:
As is described in the RockSat-X User’s Guide, customers have the option to pair with another university to share payload space, amenities, and cost. Please indicate the fraction of an X (payload space) you plan to occupy. It is highly recommended that sharing customers pair-off prior to submittal of this form, but it is not required. COSGC will do its best to assist in the pairing process.

**Costs and Acknowledgement of Understanding:**

We, the above mentioned team have read and fully understand the costs, requirements, and selection process associated with the RockSat-X program as outlined in the RockSat-X User’s Guide. We also understand that the User’s Guide was under revision at the time of the NOI submittal, and we will review the next revision in no longer than one week from its release. We understand that a fully refundable $2,000 earnest deposit is due on October 07, 2011 if we are initially selected. Additionally, the undersigned understands that if selected as a primary customer after final down selections that the team will be responsible for the remaining sum of the total bill as outlined in the User’s Guide. The total bill covers: costs for launch, mission management support, and other amenities provided at Wallops on the weeks of environmental testing and launch.
