Each student in ASEN 1400 is required to perform one community service activity during the course. The community service does not have to deal with the class or space but all community service activities must be approved by Chris Koehler prior to their completion. The activity shall not be a service that the student is already required to do for another course or college program. Activities should be a minimum of two hours. Complete the 60 second presentation that summarizes your service project by using the template on the website. Presentations will be given at the Final Exam on December 16, 2017 at 1:30 PM. Service projects that involve more than one person from the class will have 60 seconds for each person and each person will be expected to speak for 60 seconds.
